Results

Google's algorithms hit website redesigns hard by reducing a page's authority and trust during the transition. With our help, the client has and continues a smooth transition from one site to the other. Our team wrote keyword-rich content for the new site, connected with 11 industry domains, and published several onsite blogs and authoritative articles. Because of this, instead of seeing significant declines in site association, keyword status, and organic traffic, with only 6 months and 248 work items, our team was able to generate 177 backlinks, and bring a staggering 10 keywords into Google's top ten with boundless success on the horizon.
